Dear friend,

We invite you and your church to join us this March as we celebrate the Incarnation—when the Word became flesh. With our [God Unborn resources](#), we think about the people invited by God to participate in His own human journey. These were real people faced with challenging circumstances and life-changing decisions. In God's unborn story we can see the parallels with every pregnancy including those that are unplanned, unexpected or bring a point of crisis. We also see the unchanging truth of human dignity from conception, because that's how God planned and chose to begin His own human journey.

This year, we reflect on God's invitation to Joseph to be the earthly father of Jesus in [God Unborn: Joseph Said Yes](#). God's heart for fatherhood and the vital role of fathers, before and after birth, is clear as Joseph was chosen to be part of the most beautiful, life-giving pregnancy story ever told.

### **Resources:**

As in previous years, God Unborn includes a short downloadable film (coming soon) for church services or midweek meetings, plus a

downloadable seven-day [Lectio devotional](#) (hard copies available on request). While Sunday, 23 March, is the closest Sunday to the Feast of the Incarnation (25 March), another Sunday may work better for your church.

If you have any questions or thoughts, please don't hesitate to get in touch.

*(You are receiving this email because you previously requested to be notified when our new God Unborn resources became available. If you do not want to receive updates about new resources in the God Unborn series, please respond to this email.)*

Yours in Him,
